

I am extremely distressed that Sinclair Broadcasting stations will air an anti-Kerry film just before Nov 2nd.

They are required by law to present balanced information about elections, and MUST air a Pro-Kerry film at a similar time.

It appears to me that Sinclair is banking on winning the election for Bush and therefore not being held accountable for their illegal action. If in fact, you do not take action against Sinclair in equal weight to their crime, we will all know that the FCC has failed citizens and democracy.

You hold so much power to do right or to do harm to our society.

Thank you for listening.
